

## **Time and Space**

**The river flows so new and clear,  
But nuclear bombs are something I can't trust.  
Heaven's stars look so peaceful,  
But men are still fighting men all around us.**

**And was your precious life a gift to you ?  
Who could have put you here in green and blue ?  
If you're gonna spend your talents before you die,  
What better place to spend them than**

## **Time and Space**

**Peace on Planet Earth,  
It never was, and how could it ever be?  
The King will come again  
But everyone says, "I'll believe it when I see".**

**Everybody wants that perfect love, if they can  
It cannot be found in another woman or a man.  
And if I'm gonna have a good time before I die,  
What better place to spend it than**

## **Time and Space**

**Power is the Kingdom,  
But is it possessed, or is it given ?  
To be what you will be son  
To love, to hate, kill or create in living.**

**And now I see that it's all mine to choose,  
Everything to gain and everything to lose.  
And if I'm gonna gain and lose it all before I die,  
What better place than here in  
Time and Space ?**

**We're all living in time and space...  
But are we lost in time and space ?**
