

Stand and Deliver

**The wind and the moon are behind me
I feel like a highway man of old
I don't give no mercy, I don't need no alibi
I'm out to pick me some love from the jewelled sky**

**Watch for me by the moonlight
If hell doesn't block my way
And you will be my prize of the night
If I'm only dreaming, tell me how and why
I'm gonna take your love or your life
Stand and deliver.**

**When I climb inside your window
With more in my mind than a share of the night
You can kick, bite and scratch, but you'll have to
surrender
The chances are you won't see me no more**

**Watch for me by the moonlight
If hell doesn't block my way
And you will be my prize of the night
If I'm only dreaming, tell me how and why
I'm gonna take your love or your life
Stand and deliver.**
