

Witness to Wonder

When lovers walk the streets at night

They are hand-in-hand, they walk in time

Lovers fall in love, and realize

Love will always be their mystery

All the time in the world is theirs

Take it away, you have been stripped bare

Love

It is cold to me, as the heartbeat chills

Your'e close to encounter, witness to wonder

Love.

When lovers leap from cloud to cloud

They refuse to see the world around

Locked out with their sight and the surrounding sound

Love will always be their mystery

What is love when it's a surprise ?

Fall in deep and realize

Love

It is cold to me, as the heartbeat chills

Your'e close to encounter, witness to wonder

Love.
