

No Easy Road

**Rock 'n roll keeps dragging me
Where I don't know and you can't see
Cities rolling by and by
They twist my arm and sting my eye**

**Point me in the right direction
Stamp your feet and shout
We can laugh and play around
And be best friends right now**

**Watch me join the circus
Watch me steal the show
There ain't no easy money
There ain't no easy road**

**Buy me, pay me, wonder why
We stumble across the land
Don't fail for you, you can't fail for me
We start to understand**

**Rock 'n roll keeps dragging me
Where I don't know and you can't see
Cities rolling by and by
They twist my arm and sting my eye**

Watch me join the circus

Watch me steal the show

There ain't no easy money

There ain't no easy road
