

Mental Radio

**Always hearing language that seems to confuse me,
I refuse to work in silence any more
I can't see any reason for you to doubt it -
Serve the needs of life, answer to the call.**

**Our love is stronger
Our love is stronger
I'm waiting for our love to show
I'm waiting for our love to grow
Waiting for our love to show
Waiting for our love to grow.**

**Cynics must have their own little grim world-
Information shared, heavy as frost
Wise men have always been our histories radar
Architects of destiny caress no loss.**

**People tryin' to guide us, I know they don't see
Emotional mortgages at every door.
Searchin' for the joy of every day life -
Is there another future worth trying for ?**

Our love is stronger

Our love is stronger

I'm waiting for our love to show

I'm waiting for our love to grow

Waiting for our love to show

Waiting for our love to grow.
