

My Brother

My brother

Needs a woman

A woman needs my brother

They need each other

A mother needs a son

A son needs a mother

Sometimes

They miss each other

My brother -

He's grown up now

Ran off to America

Met a girl and fell in love

We all hope its gonna be great

We all hope its gonna be fine

We all want to be there

When you sign.

My brother

He needs a woman

This woman, she needs my brother

They say "we need each other"

A brother

Still needs a mother

A mother still needs a son

Sometimes we all need someone.
