

## **Dream Train**

**Weaving a web around my heart**

**Slowly taking my world apart**

**I can't begin to think of anything else**

**Leave my reason way up on a shelf**

**Stealing away without a sound**

**My feet don't hardly touch the ground**

**I look at the clock, the hands of fate**

**The train I'm riding can't be late.**

**Riding on that dream train -**

**One look in your eyes, and I follow through**

**Riding on that dream train -**

**I've been a rider since I met you.**

**The brush of her skirt, the look in her eye**

**No use denying the curve of her thigh**

**I got a feeling I'm out on limb**

**Past committing original sin**

**Cold steel on a railroad track**

**Hard heart, I ain't coming back**

**Put the border on red alert**

**Heed the warning, you're gonna get hurt.**

**Riding on that dream train -**

**One look in your eyes, and I follow through**

**Riding on that dream train -**

**I've been a rider since I met you.**

**I've got to board that dream train -**

**One look in your eyes, and I follow through**

**Riding on that dream train -**

**I've been a rider since I met you.**
