

Sing Out the Song

Remember the bar garden

Glass filled with beer

Nothing to loose, only good times to gain

A friend to help along

When the words wouldn't come

Sing out the song brother

Sing it loud and clear

Then we'll laugh together

Like the old days (so dear)

The rusty guitar

Its sound filled the air

Out of tune choruses

That didn't sound quite there

How about the joker

He got his laugh and then he said

Sing out the song brother

Sing it loud and clear

Then we'll laugh together

Like the old days (so dear)

**The way the things are now
It's not the same anymore
And I sometimes wish that
We could all sit down together
And sing it all again**
