

Cosmic Jazz

**I know your name - you told me, it's a cloak and dagger
tune,**

**Make love to you every full moon baby, when the day is
through.**

**Use your magic carefully, the danger creeps up slow,
Intuition can serve you well, but fool you when it's time to
go.**

**I've been stealing like a thief, now I'm shaking like a leaf,
Screaming out, its coming soon, yeah, yeah - the crescent
moon.**

**Cosmic jazz all around, keep my feet on the ground
Overload, shake down - KALI GO, KALI GO**

About this premonition, it contains a spell

It stays just like a vision – surely means: not doing well !

Spark come from the finger, the witch is painted black,

**The Wizard tied up by her love, but now he wants his wand
back.**

**I've been stealing like a thief, now I'm shaking like a leaf,
Screaming out, its coming soon, yeah, yeah - the crescent
moon.**

Cosmic jazz all around, keep my feet on the ground

Overload, shake down - KALI GO, KALI GO

Cosmic jazz all around, keep my face underground

Overload, shake down - KALI GO, KALI GO
