

Hometown

**I have travelled light,
Held many hands I'm sure I'll hold again,
Made a lot of noise
In the strangest places far away.**

**Only for a day at a time,
I've been moving with the wind on my side,
And I'm coming down the road
That puts me free and easy in my hometown.**

**I said I'd stay alive
I guess I didn't tell a lie.
I told you I'd come back again
And I'll say the same next time.**

**I've been living for a day at a time
Movin' with the wind by my side.
I'm coming down the road
That puts me free and easy in my hometown.**

**You don't know how good it feels
To see you again
I know I never want to go away
You don't know how good it feels
To be with you again -
I know I'm comin' home to stay.**

**I say it's nice to be, back home
Among my friends.
It means a lot to me
That your love - it never ends.**
