

Interstellar Rockstar

Simulcast transmissions fly through space and time

The interstellar rockstar can be heard

First the stars shine over everybody's head

People of all races flock to hear the master plan

Melodies of beauty ring out, sing out through the night

They cast a web of unity, for all in flight

Simulcast transmissions fly through space and time

Signals pure and clear like never heard

Echo through the skies, relayed to every planet

The interstellar rockstar can be heard

**Reaching for the stars, past Jupiter and Mars, I hear this
song**

**Bouncing off the Milky Way, through the sea of
Tranquillity**

First the stars shine over everybody's head

The interstellar rockstar can be heard
