

You See Red

**When a days work is done and you're down on the ground
You come home just to find that she's not around.**

**You see red, you see red, when she takes you for a fool.
You see red, you see red, read the writing on the wall.**

**What you give is what you get, when it comes to loving.
If you lie, make her cry, she will leave you alone.**

**You see red, you see red, when she takes you for a fool.
You see red, you see red, read the writing on the wall.**

**So you drink your gin,
And drown your sorrows
Don't expect a tomorrow.
Wasting away ain't no way to say
That you're sorry
For what you have done.**

**When a days work is done and you're down on the ground
You come home just to find that she's not around.**

You see red, you see red, when she takes you for a fool.

You see red, you see red, read the writing on the wall.
