

Cosmic Jazz

I know your name - you told me, it's a cloak and dagger tune,

**Make love to you every full moon baby, when the day is
through.**

Use your magic carefully, the danger creeps up slow,

Intuition can serve you well, but fool you when it's time to go.

I've been stealing like a thief, now I'm shaking like a leaf,

**Screaming out, its coming soon, yeah, yeah - the crescent
moon.**

Cosmic jazz all around, keep my feet on the ground

Overload, shake down - KALI GO, KALI GO

About this premonition, it contains a spell

It stays just like a vision – surely means: not doing well !

Spark come from the finger, the witch is painted black,

**The Wizard tied up by her love, but now he wants his wand
back.**

I've been stealing like a thief, now I'm shaking like a leaf,

**Screaming out, its coming soon, yeah, yeah - the crescent
moon.**

Cosmic jazz all around, keep my feet on the ground

Overload, shake down - KALI GO, KALI GO

Cosmic jazz all around, keep my face underground

Overload, shake down - KALI GO, KALI GO
