

Passion

Crazy fools like you and me

How did we ever meet ?

Playing out our fantasies

On the same side of the street

You said you needed somebody

To sweep you off your feet

And I blew in like a wild wind

You tasted oh so sweet

The Passion, passion, passion of love

The passion of your love.

Crazy fools – the people say

Love, the place we share

Play that fantasy with me

Play it without a care

So you've been broken hearted

You know I've been there too

But now I feel I can change the world

So long as its with you.

So you've been broken hearted

You know I've been there too

But now I feel I can change the world

Hand in hand with you.
