

**(In all of my dreams) You Rescue Me**

**Among the stars on this side of heaven**

**I lay broken and destroyed.**

**When people on the earth have cut you down**

**The sky's the only place to hide.**

**And as I floated in the moonlit night**

**You arrived to take me home.**

**I kissed your hand and I came back to life**

**And all the wrong became alright.**

**In all of my dreams**

**You rescue me**

**It always seems - you rescue me.**

**I was wandering down an endless road**

**A fallen angel in the cold.**

**You appeared before me like a vision**

**To whisper love I used to know.**

**So easily you gave to me secret promises**

**Like only magic words can flow.**

**In all of my dreams**

**You rescue me**

**It always seems you come and rescue me.**
