

## **The Way of the World**

**Keep the wheels turning**

**On this lonely road**

**A slave of mother nature**

**I've got to get back home**

**Such a grey coloured nightmare**

**Of what used to be so good**

**Dreams and desires**

**It's the way - the way of the world.**

**See a light in the distance**

**Gonna show me the way**

**Another road to be taken**

**Another stage to be on**

**Carry me, carry me**

**A little closer home**

**Dreams and desires**

**It's the way - the way of the world.**

**Stormy weather, take me to**

**Back where I belong.**

**At the airport, on the plane,**

**Now I'm going home.**

**Takes so long, flying high,  
I just love the way of the world.**
