Welcomed me home with my name in lights,
Took me by the hand, shook away my fear,
Brought back the memory of those earlier years.**

**Everybody's talkin', front page news
Gotta help you get up and get rid of your blues
Cheatin' the devil or whatever you choose,
Even if you've got nothin', boy,
You've got somethin' to lose.**

Got the answer if you've got the time
Can't go on forever in a lotus land,
Don't end up doing one night stands.**

**I've seen your face in every cloud,
I've followed the sun which brought me back to your side
I've lived some time by what the fortune-tellers say,
But now I know that I'm in love with U.K.**
