

**Surface to Air.**

**Surface, surface, surface,**

**It's beginning to show.**

**To where ? - to air, to air,**

**To where you can go.**

**Abrasion can wear you away**

**All you wanted was to go out and play**

**Time to fix this crack in the eagle**

**Before she flies away.**

**Spoken, stoking, smokin',**

**Makin' cloudier skies**

**Tooting, saluting, shooting-stars**

**To terrestrial minds they shine**

**Monkey, monkey, wanna play around with fire**

**Get confused when the flames burn your hand**

**Got to fix this ache in the eagle**

**So she can understand.**

**Surface, surface, surface,**

**It's beginning to rise.**

**To where ? - to air, to air,**

**To where you can realize your dreams**

**Brains and beauty can scare you away**

**Who knows how much is too much to say ?**

**Time to fix this hate in the eagle**

**Before she flies away, flies away.**
