

Fast Johnny

I fell in love with a dark-eyed lady, she seemed to be on her own,

She came from nowhere when I came over –

A princess without a throne

That night as I was taking her home,

I got a feeling that we weren't alone

Keep your hands on the wheel, we got a tail-gater

Tryin' to run us off the road.

What are you gonna do

When a man from her past catches up with you ?

What are you gonna do when he wants to make a claim on you ?

Fast Johnny - I'm flat on the boards

Fast Johnny - I'm cutting the corners

Fast Johnny - I'm closin' the door

Fast Johnny - don't chase me in your car no more

You know nobody can drive quite like I can

Runnin' every red light in town

We danced on the floor, danced on the street

We danced as the wheels turned around.

Maybe Johnny, you'll meet your match

When you look into my Chevy's eyes,

Keep your engine hot and running,

'Cause this sweet little honey is gonna take you by surprise.
